INF 110

kiosk ki
innova

Fundamentals

Designed for places with restricted application areas, INF can easily be positioned in any place, even in the narrowest areas thanks to its slender and tall structure. Modular structure of INF 110 supports the multipurpose use feature. Used for general information with its 19 " touchscreen display, the kiosk becomes suitable for advertising or Digital Signage by adding a second 19 " display.

A barcode reader feature may be added to INF 110 optionally to enable customers to have the product prices read. Thanks to INF 110 which may be turned into a full self-service payment point with the card reader and receipt printer, existing personnel starts working more efficiently. With its body suitable for corporate branding, INF 110 enables you to reflect the corporate identity in the best way possible.
